

Makeup must-dos

How do you preserve makeup quality? Here are some ideas:

- ✿ **Keep makeup away from intense light or heat.** Preservatives degrade faster when exposed to both.
- ✿ **Close containers tightly after use.** Mascara, especially, tends to dry fast. Loss of volatile oils may change the characteristics of a product.
- ✿ If the color or appearance of your makeup changes and an odor develops, **throw it away.** To be sure, before buying makeup, ask for its expiration date.
- ✿ **Don't add water to liquid makeup** to bring back its original consistency. Water can change its preservative system, inducing the growth of bacteria.

Some product picks:

Ellana Espresso Con Panna oil-absorbing mineral finishing powder, P120

Ellana Enchanted sheer natural mineral blush, P180

Maybelline Clear Smooth aqua gel foundation, P349

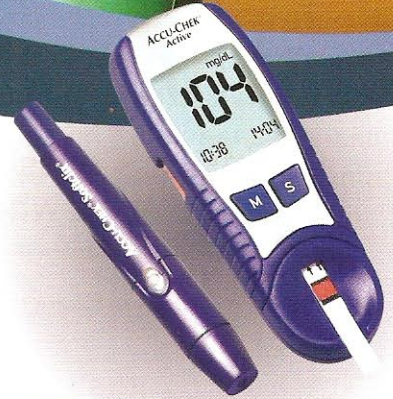

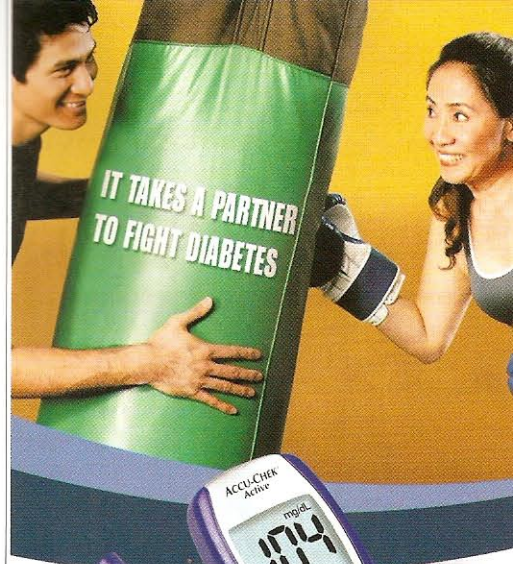

Maybelline Color Wear trio eyeshadow, P429
